

# Club Shop Catalogue

Official Stamford AFC Football Development Centre Kit from our own club shop

Season 2011/12

Stamford AFC

Football Development  
Centre

Dear Team Managers and Coaches

Welcome to the first Stamford AFC Football Development Centre playing and training kit catalogue.

As a Development Board this season for the first time, and as a strategic development for the club, we have attempted to promote the team spirit of the entire club from mini-football through to the proposed U21 side. We have purposefully tried to differentiate ourselves from other clubs by the way we do things and formulate a club spirit rather than being a loose group individuals being in charge of a specific football team or age-group.

I hope you have seen and most importantly experienced a positive improvement in the club environment this season, as we ultimately aim to ensure that we provide the very best football experience in the local area for player, coaches, parents and sponsors.

The SAFC FDC brand is central to our identity and we have composed this catalogue to provide for the first time, a coordinated range of SFAC FDC APPAREL.

As this is a club shop, to ensure good availability and minimum lead times, we will aim to hold stock of key lines. An internet portal will also be live in due course. Sponsor logos can be added to apparel for a small additional cost and we can also invoice sponsors directly if they are VAT registered or need paperwork for their accounts.

An order form will be emailed through separately illustrating the specific sizes available in each line.

I hope you find it suits your requirements, but as ever, your feedback is much appreciated. If there is anything that you require that is not listed, or anything you think should be included please contact me.

Ian Evley

Chairman and Football Development Officer
